

Interested in teaching English Virtually / Abroad this Summer?

Not sure how you're spending your summer? Don't want to be working a boring desk job? Then apply to teach English to students in underserved areas abroad with [Learning Enterprises!](#)

Learning Enterprises (LE) is an international non-profit organization that sends young adults around the world over the summer to teach English in under-resourced areas. Each volunteer experiences true cultural immersion by staying with a host family who provides all the essentials, like food and accommodation, thereby keeping in-country costs very low. This year, we will also be conducting virtual teaching programs in countries that will be unsafe to travel to due to COVID-19. Whether you're participating in an online program or traveling abroad to teach, you're certain to gain teaching experience, learn about a new culture, and connect with students from across the world!

LE is extremely affordable, charging **no program fee**, so volunteers only have to pay for their flights and food during training. It's a great way to learn about a different culture, practice your language skills, while helping a great cause.
